

ESON offers a range of programs to aid and support teachers in their science teaching.

Resource Kits

Our resource kits are available to all teachers in the Edmonton area. These kits are curriculum based and are designed to help bring a hands-on aspect to the classroom.

Scientist in the Classroom

Our volunteers provide fun, interactive presentations to thousands of students yearly. They add depth to the curriculum, give real life examples and stimulate student thinking.

Ask a Scientist

This service is for teachers and students alike. If you have a why or how question about Science this is the area for you.

For more details see our website at www.sciencehotline.ca

Edmonton Science Outreach Network thanks its supporters and partners without whom these programs would not be possible.

Workshop Details

What, when and where

- *Grade 6 Flight*
- *January 14th 2010*
- *Alberta Aviation Museum*
11410 Kingsway Ave

Who

Dave Heathcote, Director of Education and Technology at the Alberta Aviation Museum

Outline of Workshop

Discover the theories behind flight and get some great interactive ideas for teaching aviation and flight in your classroom. The session is all about hands on learning - for you and your students.

Dave Heathcote and the team at the Aviation centre are experts in aviation, air and aerodynamics with real life experience of flying planes. There is a wealth of information about these topics at the centre which you will be able to access.

The session will cover:

- key elements of the Grade 6 Science Curriculum
- a listing and demonstration of the ten most useful internet sites
- a demonstration of the most appropriate current resources for interactive teaching
- a tour of the Museum and the teaching facilities

Further information

Coffee and cakes will be provided

All participants will receive:

- Handouts to link to the presentations
- A demonstration kit to assist their classroom delivery
- A Certificate of Completion for your professional portfolio
